EXAMINER'S AMENDMENT/REASONS FOR ALLOWANCE

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James M. Silvermann on 7/29/04.

The application has been amended as follows:

In claims 21 and 25, line 1, after "membrane", insert "--according to claim 1--", and delete in lines 4, 5, and 6, the term "as set forth in claim 1".

The following is an examiner's statement of reasons for allowance: CLAIMS 1-3, AND 5-51 ARE ALLOWED OVER THE PRIOR ART OF RECORD. The prior art of record, and in particular reference 4,238,590, fails to disclose the process of making a membrane and the membrane made from the claimed compositions of formulas 1-4 or mixtures thereof including "curing the membrane by forming an organic network by thermal curing, radiation or chemically induced curing. The reference above teaches drying the membrane and optionally heat treatment, curing to form an organic network is not disclosed, not further modification of the membrane by the heating process other than drying is discussed in the reference. Allowability is further supported by applicant's remarks filed on 7/7/04, page 20, and lines 25-28. The process of using the resulting

membrane in ultrafiltration, reverse osmosis, etc. as claimed in claim 17 is not suggested or disclosed in the above reference.
